

Ideation Phase

Define the Problem Statements

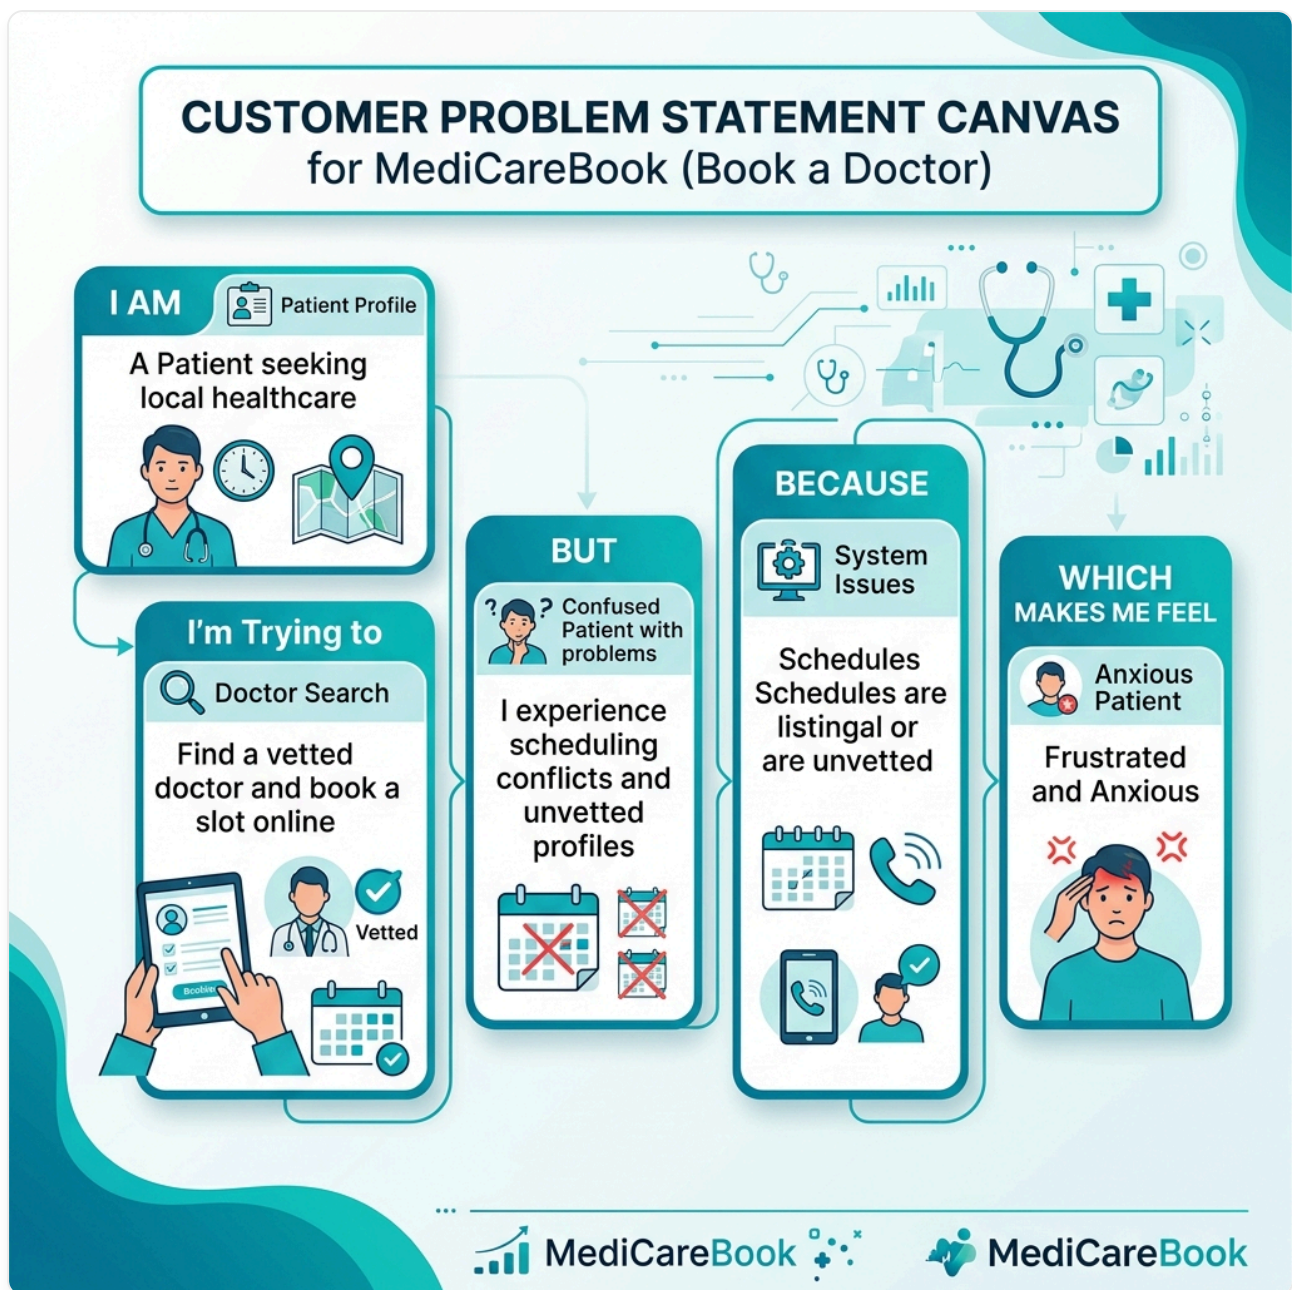

Date	18th June 2026
Team ID	
Project Name	MediCareBook (Book a Doctor)
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Project Implementation: Customer Problem Statement Canvas (Book a Doctor)

Customer Problem Statements Matrix:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Patient user	Find a verified specialist and schedule a clinic consultation online.	I experience scheduling overlaps and fake registries.	Schedules are handled via paper books or unvetted boards.	Frustrated and anxious.
PS-2	Doctor practitioner	Manage my consultation queue and update my hourly pricing.	I cannot edit my fees and slots dynamically in real time.	The booking software has no practitioner dashboards or self-service options.	Overwhelmed and unorganized.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-3	System admin	Audit directories and clean up invalid user records.	I have to manually delete orphan entries.	The application lacks vetting queues and automatic cascading delete database hooks.	Bottlenecked and stressed.
